

is going green

GREEN WISE^{CM}

certified by
Coatings Research Group Incorporated

CRGI

Coatings Research Group Incorporated

is an international organization of paint manufacturers. The accredited CRGI laboratory, staffed with degreed chemists, is recognized the world over for high quality technical work and scientific reporting.

GREEN WISE certification is when a product passes 6 green testing standards. Mobile Paint Manufacturing Co., Inc. products that display the GREEN WISE mark are tested and certified by Coatings Research Group, Incorporated. These products meet or exceed environmentally determined testing standards and environmentally preferred over traditional paints and coatings. Visit www.greenwisepaint.com to view product standards. These standards have been chosen to accurately measure the green characteristics of the paint. To ensure that you are using environmentally preferred paint products, look for the GREEN WISE logo.

GREEN WISE Certification Testing Standards.

- 1. VOC levels (Volatile Organic Compounds)**
Paints with low or no VOC's are certifiable
- 2. Contrast Ratio (Opacity)**
Paints with better opacity means less coats therefore less VOC exposure.
- 3. Y-Reflectance**
Paints with opacity are tested at same brightness levels
- 4. Washability**
Paint film must be washable with green cleaners. (Cleaners with no ammonia or harsh chemicals)
- 5. Odor**
Low Odor Paints offer reduction of eye, nose and throat irritations.
- 6. Prohibited Compounds**
Paints will not contain known harmful chemicals.
